

‘श्री’

‘धन्यानामुत्तमम् दाक्ष्यम्’

- **The Best of laudable things is skill**

It gives me immense pleasure to welcome you to this historical palace of education continuing the legacy of this institution to provide excellence in learning , the faculty and staff are committed to impart high quality education to its students.

The sprawling campus speaks of its origin as a fortress of the Holkars and is spread across 13 acres. This site is thus of special significance in terms of its heritage and culture.

We offer around 15 PG courses including science, Arts, Library science, Home science and Commerce. We aim at honing skills of our students at multiple levels and so we give them ample Opportunity to develop and showcase their talent in various fields like NCC, Sports, Dance, Music, Arts as well as technology at state and National levels.

The natural surroundings and the nearness to the city provides a perfect blend for learning of our students. Our strong focus towards quality education fuels our commitment to facilitate building employability of our students as well as nurture their confidence to venture in self employment. Aligned with the new education policy , we are proud to work as incubation centers for student driven start-ups and contribute positively to our growing economy.

I believe in the power of knowledge as a key to attain fulfillment and eventually liberation. As the Sanskrit idiom – ‘सा विद्या या विमुक्तये’ indicates knowledge is one that liberates. I encourage students to acquire skills and knowledge and use it to ascend at higher altitudes of success in their career ladder.

The institute welcomes new talented and zealous youth with innovative acumen and a desire to utilize the available opportunities and resources to bring laurels to the institution with their brilliance and contribute in shaping their flourishing future for a better nation.

With all good wishes

Dr. Meenakshi Joshi
